

UNOFFICIAL COMMUNICATION – PLEASE DO NOT ENTER**Re: U.S. Patent Application Serial No.: 09/994,357****Our Docket # F-323**

sending a test message to the subscriber to confirm that the forwarding e-mail address is correct;

sending a pre-generated e-mail address change notification to the identified one or more e-mail address change notification recipients; and

providing a description of the e-mail forwarding service in the pre-generated e-mail address change notification;

associating the disfavored e-mail addresses with the corresponding forwarding e-mail addresses in an e-mail forwarding computer;

providing an electronic address for receiving messages at the e-mail forwarding computer, said messages relating to any of the plurality of disfavored e-mail addresses;

receiving said messages at the electronic address;

identifying, with the e-mail forwarding computer, a disfavored e-mail address in a received message, the disfavored e-mail address being other than the electronic address for the e-mail forwarding computer;

determining, with the e-mail forwarding computer, a forwarding e-mail address associated with the disfavored e-mail address; and

forwarding at least a portion of the received message from the e-mail forwarding computer to the associated forwarding e-mail address.

2. The method as recited in claim 1 wherein the step of registering further comprises providing a link to a subscriber registration interface in the pre-generated e-mail address change notification.

3. The method as recited in claim 1 wherein the step of identifying one or more e-mail address change notification recipients further comprises selecting recipients from subscribers' e-mail address books.

4. (canceled).

5. A method for providing notification of an e-mail address change and forwarding messages to forwarding e-mail addresses, the method comprising the steps of:

registering a plurality of subscribers for an e-mail forwarding service, the step of registering comprising:

identifying disfavored e-mail addresses of the subscribers;

identifying forwarding e-mail addresses of the subscribers;

identifying one or more e-mail address change notification recipients;

sending a test message to the subscriber to confirm that the forwarding e-mail address is correct;

sending a pre-generated e-mail address change notification to the identified one or more e-mail address change notification recipients; and

providing a description of the e-mail forwarding service in the pre-generated e-mail address change notification;

associating the disfavored e-mail addresses with the corresponding forwarding e-mail addresses in an e-mail forwarding computer;

providing an electronic address for receiving messages at the e-mail forwarding computer, said messages relating to any of the plurality of disfavored e-mail addresses;

receiving said messages at the electronic address;

identifying, with the e-mail forwarding computer, a disfavored e-mail address in a received message, the disfavored e-mail address being other than the electronic address for the e-mail forwarding computer;

determining, with the e-mail forwarding computer, a forwarding e-mail address associated with the disfavored e-mail address;

forwarding at least a portion of the received message from the e-mail forwarding computer to the associated forwarding e-mail address; and

sending a message including confirmation data relating to the forwarding of the received message.

identifying, with the e-mail forwarding computer, a disfavored e-mail address in a received message, the disfavored e-mail address being other than the electronic address for the e-mail forwarding computer;

determining, with the e-mail forwarding computer, a forwarding e-mail address associated with the disfavored e-mail address;

requesting permission to forward the received message from the sender;
and

if permission is received, forwarding at least a portion of the received message from the e-mail forwarding computer to the associated forwarding e-mail address.

10. The method as recited in claim 9 wherein the step of registering further comprises providing a link to a subscriber registration interface in the pre-generated e-mail address change notification.

11. The method as recited in claim 9 wherein the step of identifying one or more e-mail address change notification recipients further comprises selecting recipients from subscribers' e-mail address books.

12. The method as recited in claim 9 wherein prior to the step of sending a pre-generated e-mail address change notification there is a step of sending a test message to confirm that the forwarding e-mail address is correct.
